

Important copyright notice (read this carefully!)

A number of speech lists, audio-files, wave-files, etc are copyright protected. It is illegal to copy or distribute such material or to use illegal copies of such material. Legal copies, however, may be played with any soundplayer, such as A&E. You can upload any of your sound files into A&E for later use in its speech audiometric module.

Only if and when you have a legal copy of sound material, Otoconsult is willing, out of courtesy and free of charge, to facilitate its upload into A&E by wrapping it into an 'extension file' that can be uploaded into A&E with one button-click. By signing this declaration, you explicitly request Otoconsult to provide this service and to accept full responsibility and liability for having a legal version of the speech sounds.

I hereby confirm to be the owner or license holder of a legitimate copy of the following speech audiometry material:

Dutch
